PROFILE

Tech Lead and full-stack developer with 12 years of experience, specialized in modern front-end architectures (React, Next.js, Vue) and the technical leadership of engineering teams. From MVP design to production at scale, I combine technical excellence, product vision and leadership to ship performant, maintainable applications. Self-taught engineer, equally comfortable writing code and defining a technical roadmap.

CORE SKILLS

FRONT-END

JavaScript (ES6+) TypeScript React Next.js Vue.js Nuxt.js Tailwind CSS Chakra UI Material UI

E-COMMERCE & CMS

Shopify PrestaShop WooCommerce Strapi Contentful Sanity Stripe PayPal

PERF & SEO

Core Web Vitals PWA Technical SEO Google Analytics Google Tag Manager

PROFESSIONAL EXPERIENCE

Tech Lead

Jun 2024 - Sep 2025

5SIT · Toulouse, France

- Led a team of **4 people (incl. 2 junior developers)** delivering web applications and sites end to end.
- Defined **software architectures** and technology choices aligned with business needs.
- Established robust engineering practices (code reviews, **CI/CD**, automated testing), making deployments more reliable and reducing regressions.
- Mentored junior developers and one apprentice (mentoring, pair programming, upskilling).
- Worked closely with product teams to ensure quality, performance and on-time delivery.

Front-end Tech Lead

Mar 2023 - Jun 2024

SLAGSOA Consulting · Toulouse, France

- Led **teams of 3 to 4 people per project**, delivering web applications and sites end to end.
- Defined and rolled out front-end development standards (**Angular / React / Vue** depending on the project).
- Optimized front-end performance and user experience (Core Web Vitals, load times).
- Acted as the bridge between business, product and back-end teams to ensure consistency.
- Supervised **3 apprentices** and trained teams in front-end best practices (component architecture, accessibility, performance).

Chief Technical Officer (CTO)

Jan 2018 - Jan 2022

TAPAT · Startup

- Led the startup's entire technical strategy, from design to production.
- Designed and built the first versions of the platform (**MVP → scalable product**).
- Drove application development by coordinating mainly **external teams (contractors)**.
- Supported client companies on-site to design and build their applications.

Web Developer

Feb 2015 - Jan 2018

WS Interactive · Toulouse, France

- Built websites and web applications for a range of clients (corporate, e-commerce, institutional).
- Delivered responsive integrations and optimized front-end and back-end performance.
- Collaborated with designers, project managers and developers to deliver tailored solutions.

Web & Mobile Developer — Freelance

Sep 2013 - Jan 2025

Self-employed · Toulouse · alongside my full-time roles

- Delivered **full-stack** web and mobile projects for local and international clients (front-end, back-end, deployment).
- Advised small and medium businesses on digital solutions suited to their challenges.
- Managed projects end to end: requirements gathering, development, maintenance and support.
- Strengthened my autonomy, organization and client-relationship skills.
